

# Smartphones & Tablets | Windows™

## How can I update my tablet ?

Microsoft® constantly improves its operating system by bringing many updates or fixing security issues

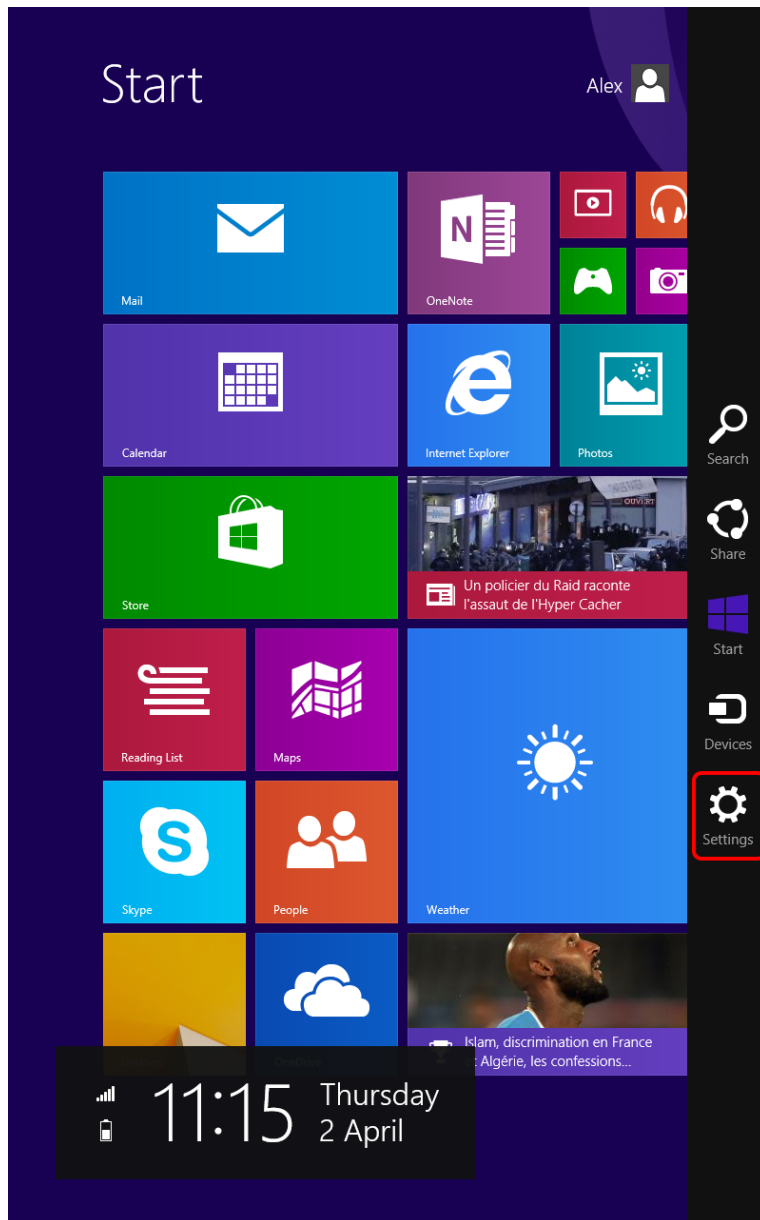

A WLAN connection is required to update your device

To install the updates, follow these steps :

- On the tablet's homescreen, from the right edge of the screen, slide your finger left and select

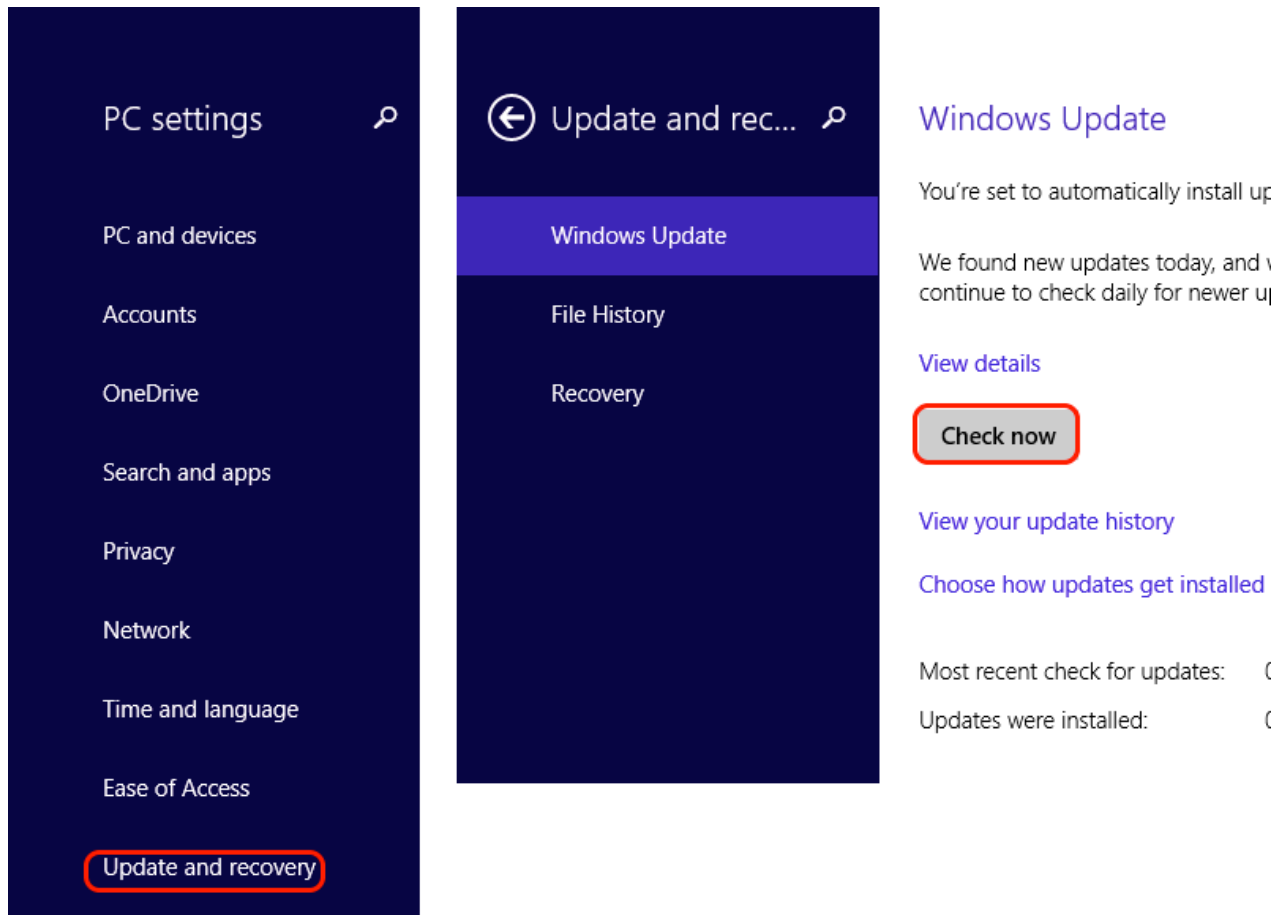

**Settings > Modify the PC settings**

# Smartphones & Tablets | Windows™

- Select **Update & recovery**. In the **Windows Update** tab, select **Check now** to find available updates

# Smartphones & Tablets | Windows™

- Once the search is done, select **View details** then tick the updates you want to install

# Smartphones & Tablets | Windows™

Total Selected: 25.3 MB - 64.4 MB

**Install**

☒ Select all important updates

## Important

Windows 8.1

☒ Update for Windows 8.1 (KB2976536) [Details](#)
