

ARCHOS Connected Self App

How do I use the Connected Self application ?

To get the most out of your Connected Self devices, you will need to download the

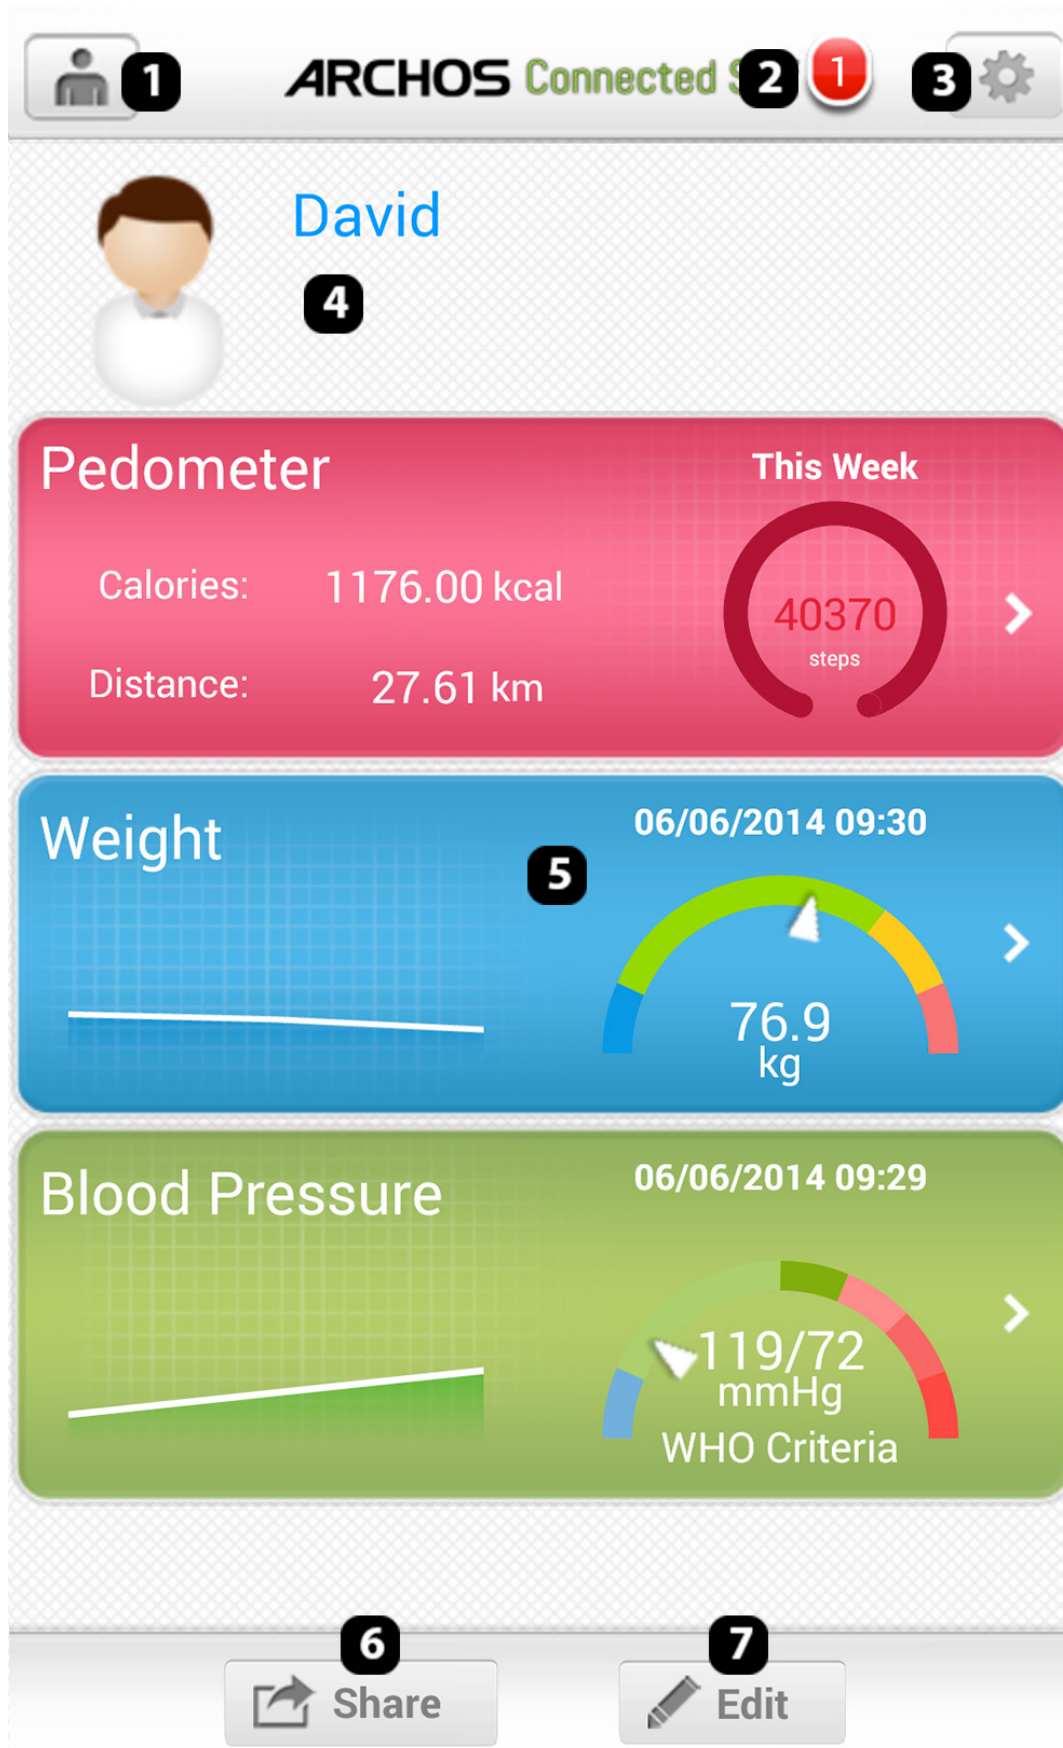

ARCHOS Connected Self application available on [Google Play™](#) for Android™ devices and [iTunes®](#) for iOS devices.

Note that your smart device must be either an Android™ device running Android™ 4.3 or later and include Bluetooth® Smart technology or an Apple® iPad 3 or iPhone 4S (or later) running iOS 5 to 8.4.1.

Main Menu

ARCHOS Connected Self App

1. List of users / user management

2. App notifications

ARCHOS Connected Self App

3. Settings

4. Name and user avatar

5. Summary / access to data specific to an object

6. Share your data (Facebook, Twitter, e-mail)

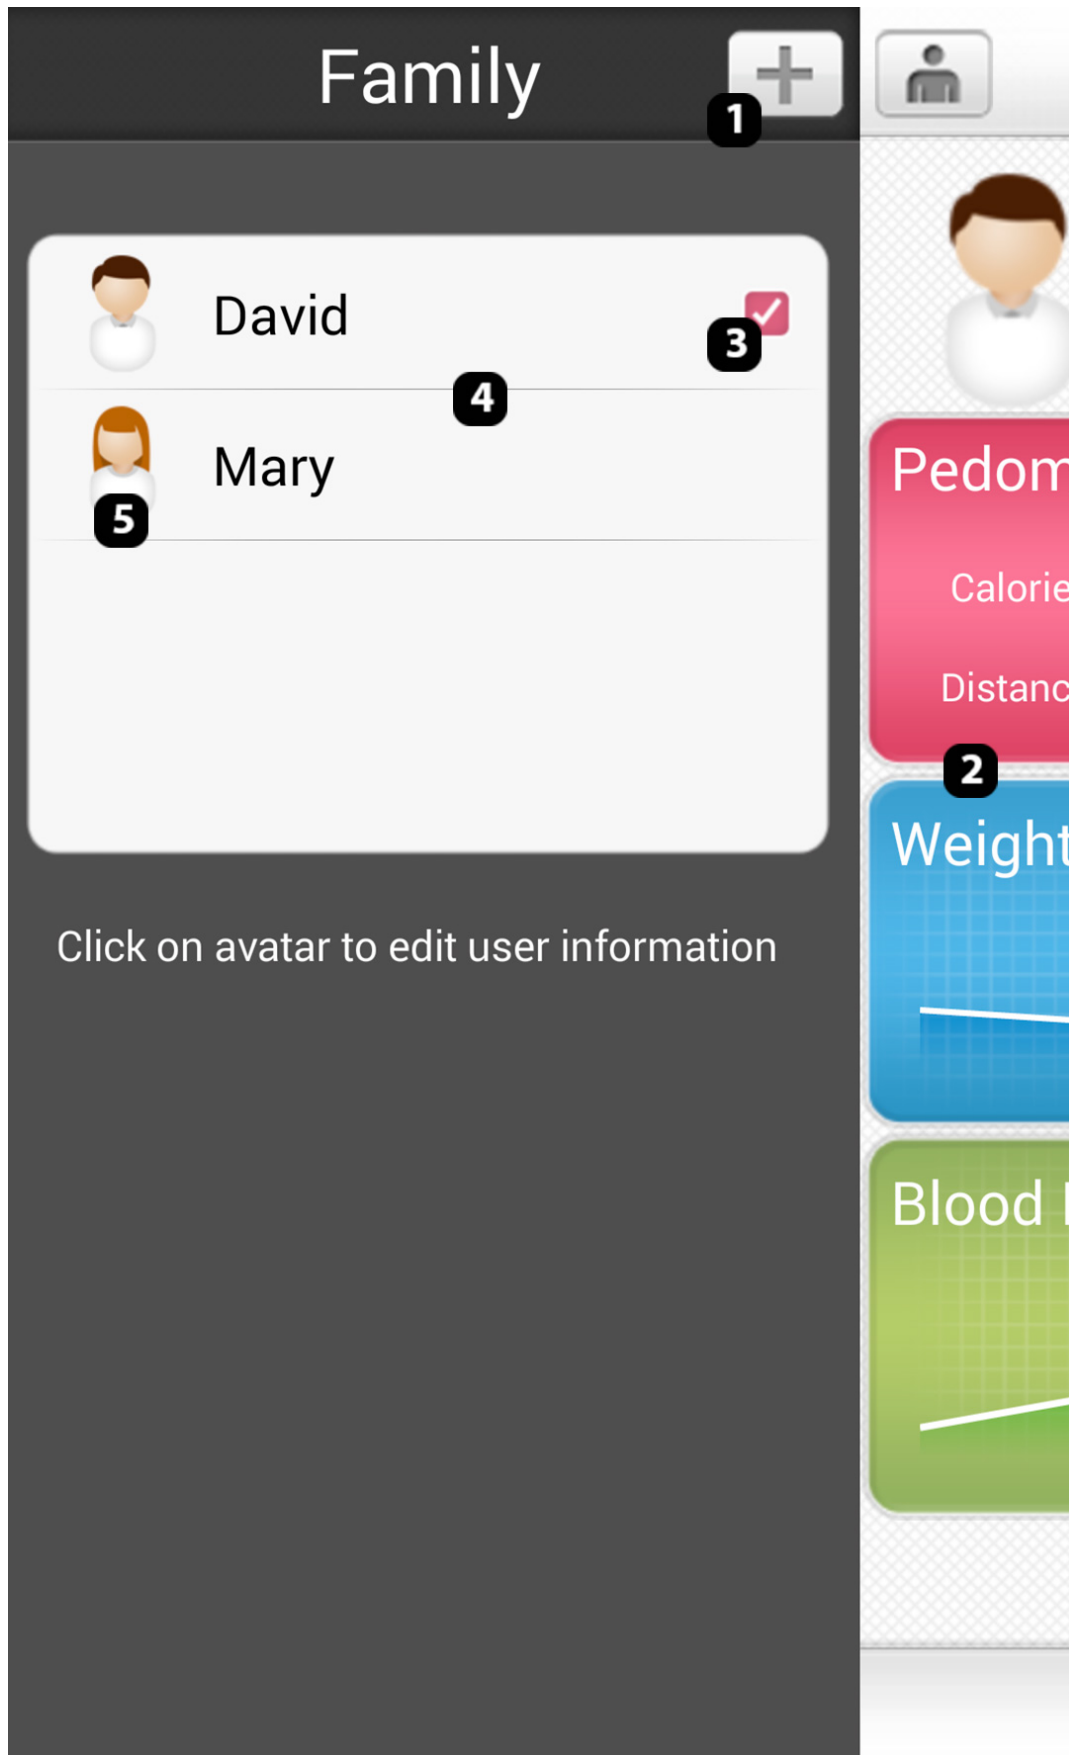

7. Personalisation

User menu

To access the user menu, touch  in the top left.

ARCHOS Connected Self App

1. Add a user

ARCHOS Connected Self App

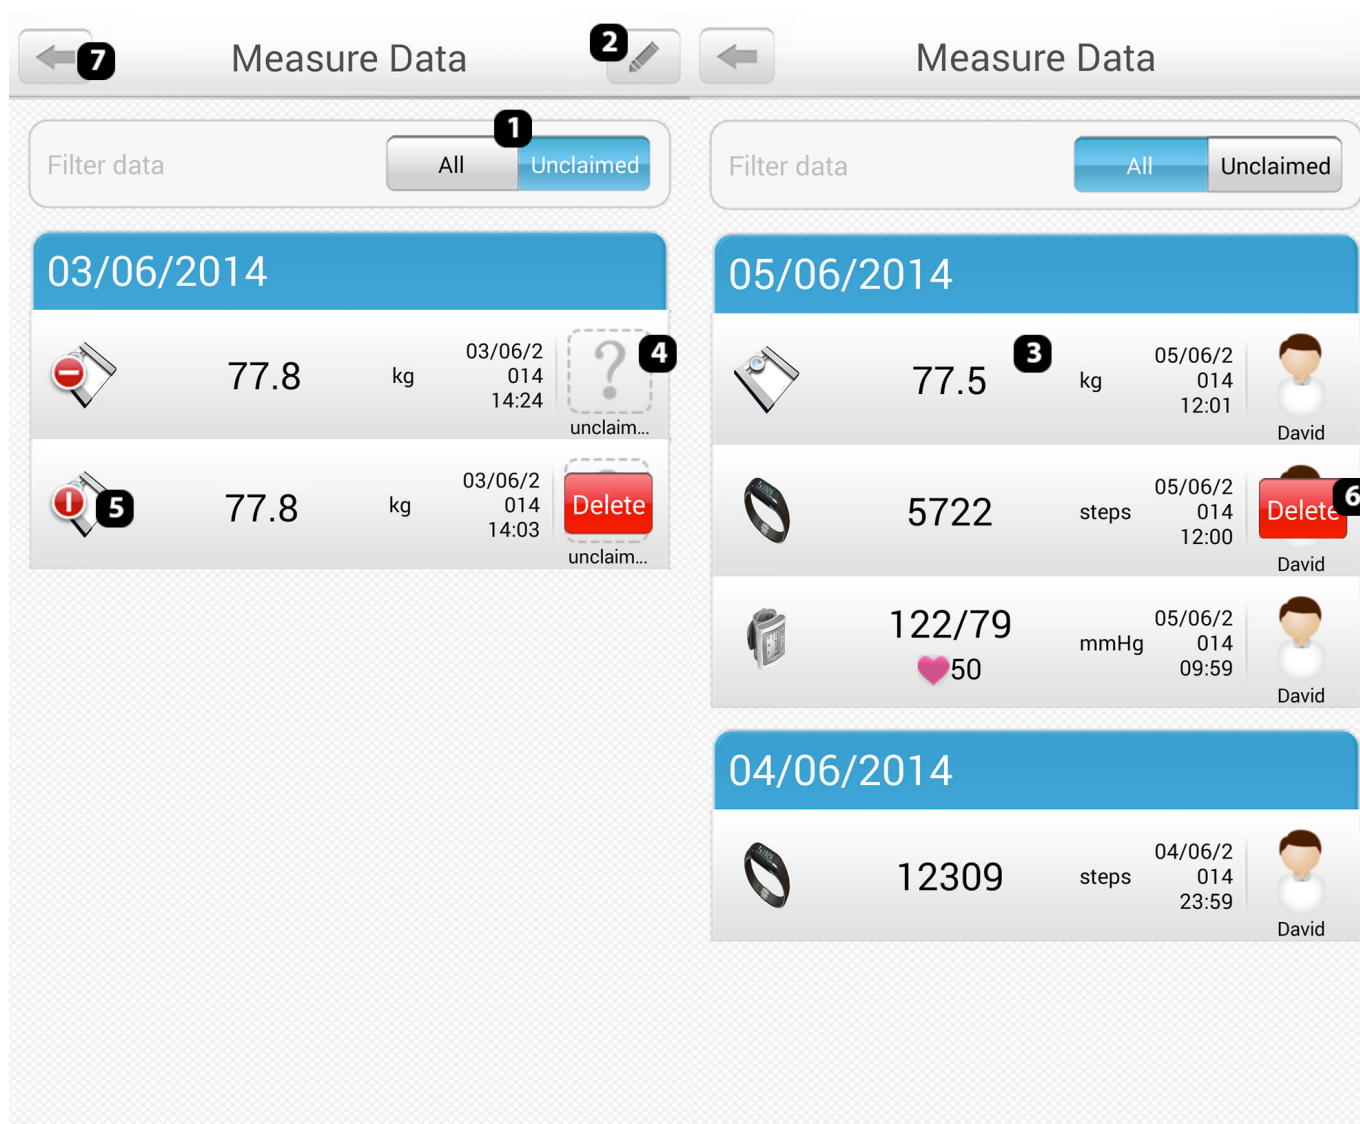

2. Back to main menu

3. Currently selected user

4. List of users

5. Touch an avatar to edit or delete a user

Notification center

ARCHOS Connected Self App

1. **Filter:** lets you filter to show all synchronisations or only those unlinked to a user
2. **Edit a measurement that is not linked to a user**
3. **List of measurements**
4. **Touch here to attribute a measurement to a user**
5. **When editing a measurement, touch this symbol to delete the unlinked measurement**
6. **Confirm the deletion of the measurement**
7. **Go back to the previous menu**

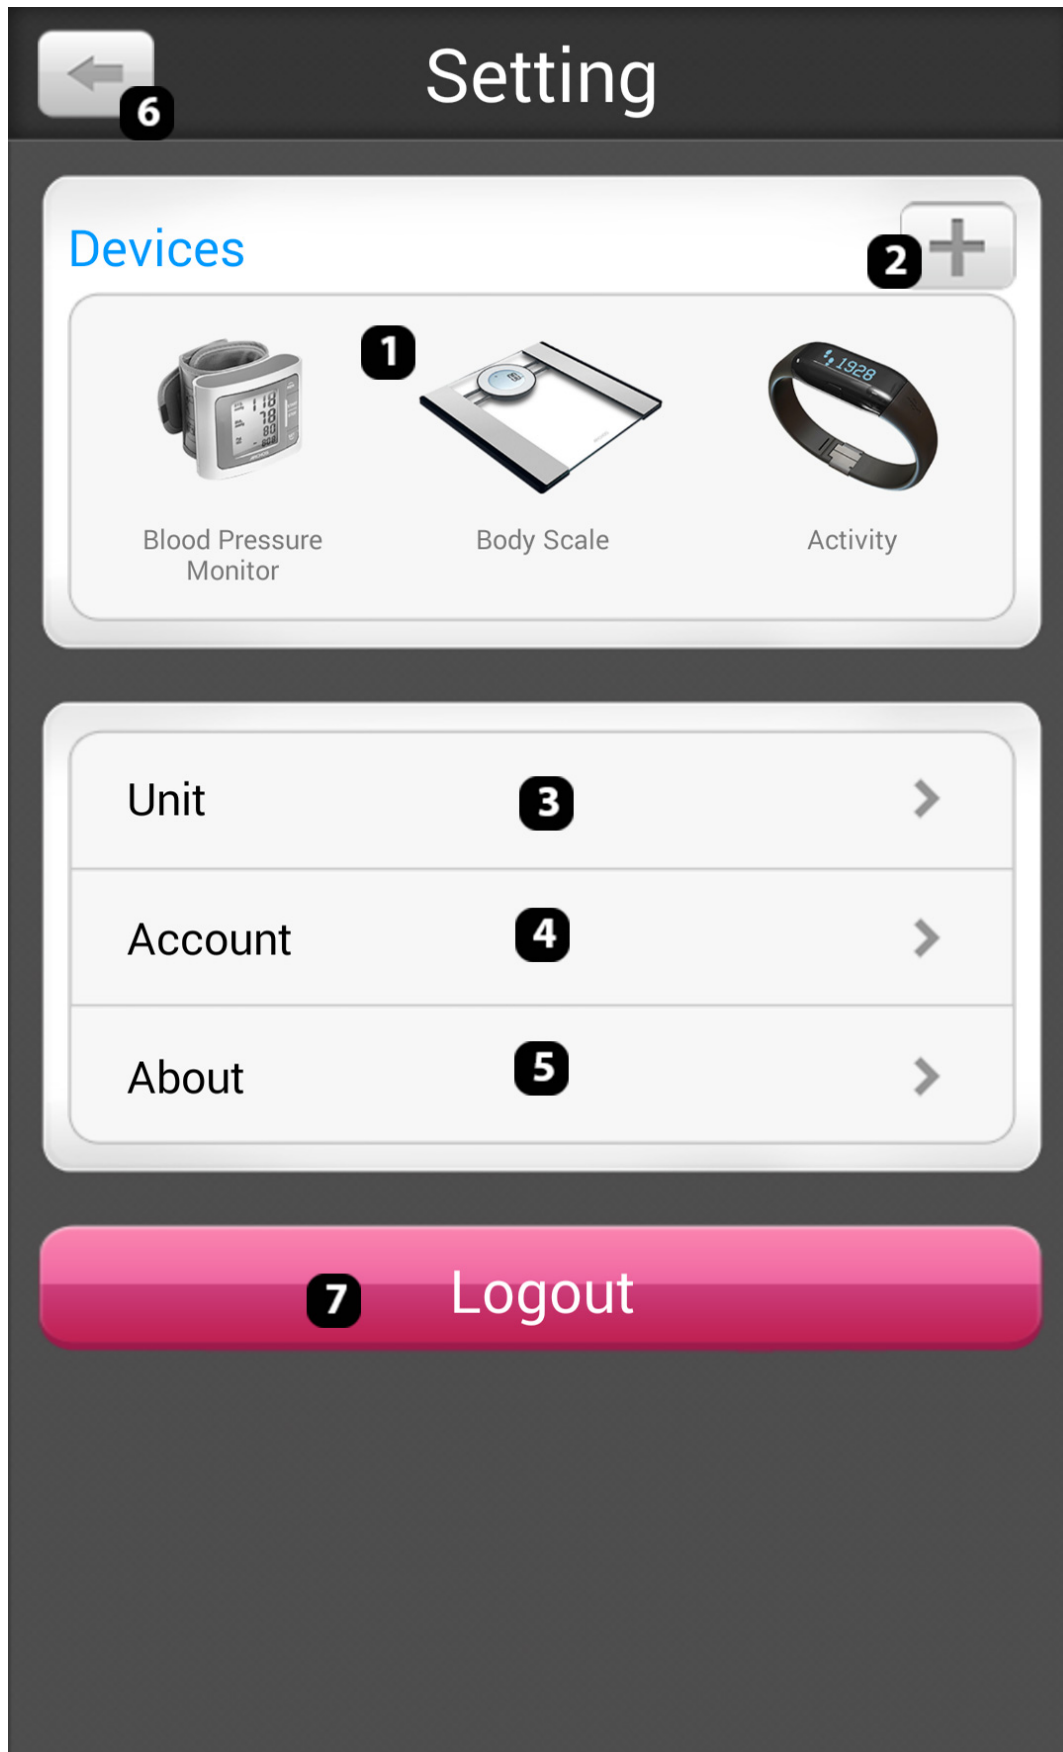

There are two ways to remove measurements depending on the type of filter in place:

- If you have filtered by unlinked measurements, first touch on  then touch the pane (5 on the image above) until it turns then touch the delete button.
- If you have not filtered the elements, you simply need to slide your finger along the measurement from left to right then confirm the deletion (see 6 above)

Settings menu

To access the settings menu press the  in the top right

ARCHOS Connected Self App

1. List of the objects linked to your account. See below for more information

ARCHOS Connected Self App

- 2. Touch to add a new object to your account**
- 3. Lets you change the measurements units**
- 4. Lets you change the password for the account or change account**
- 5. Info relative to the objects and the application**
- 6. Go back to the previous menu**
- 7. sign-out of your account**

If you need more information about one of your objects, touch it in the listing.
