WiFi

How do I deactivate my WiFi connection?

If you want to deactivate your WiFi connection, you have several solutions:

• In (or) **Settings> Wireless & networks,** simply slide the WiFi switch to the OFF position.

- In (or) **Settings** > **Wireless & networks** > **More...,** you can tick the box Aeroplane Mode. Please note, it will deactivate all comunication protocols including 3G/4G and Bluetooth®
- You can add the Battery widget on your home page from your applications drawer, letting you activate / deactivate WiFi with one press. Please read the <u>following FAO</u> for more information about widgets.

Unique solution ID: #1516
