

# Movement Tag

## What kind of actions are available with a program made for the Movement Tag ?

There are two types of actions available in a program for the Movement Tag :

- Door opening (base and magnet are separated)
- Movement

These two triggers have their own states. For the door, you can choose if you want to be notified when it open or closed and for the movement when the base is idle or mobile.

Unique solution ID: #1607
