

Motion Ball

How can I install my Motion Ball ?

1. Find the right spot for your Motion Ball.
2. Remove the sticker. Note that it has a very strong glue that can damage your wallpaper.
3. Place the Motion Ball on the chosen spot.

Do not install your Motion Ball on a metal stand as this can cause malfunctioning.

Do not install your Motion Ball more than 20 meters far from your tablet. It can stop the Bluetooth Smart® connection.
