Bitcoins

Recovering your wallet

When you connect your Safe-T mini to you computer after the Safe-T Bridge installation:

1. In the Web page www.safe-t.io, select Recover wallet.
   The recovery process starts.
2. Follow the onscreen instructions on your Web page and your ARCHOS Safe-T mini

At the end of the recovery process, you get back fully your wallet.

It is important during the recovery process to enter the correct recovery seed and the other required information.
