Phone & Messages

How to show / hide my caller ID?

According to your device, having access to this feature can be slightly different. Nevertheless, the example shown below should help you.

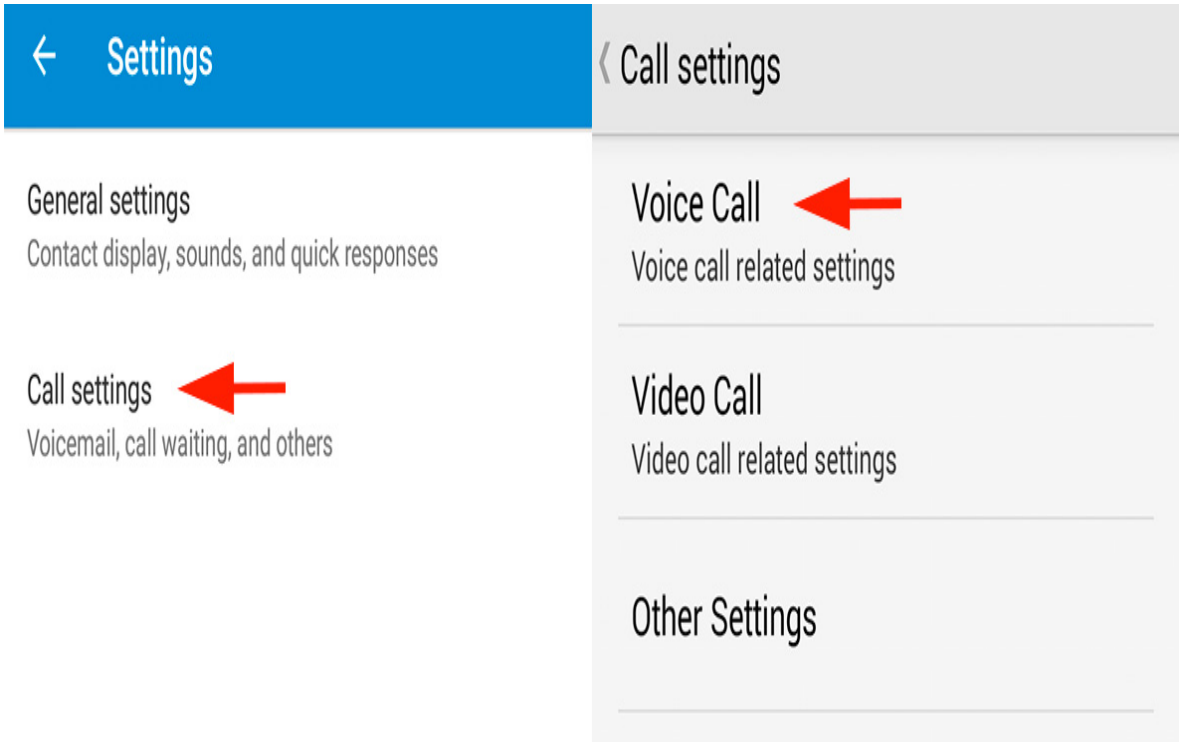

- 1. Open the **phone** app, then select the **Menu** button (located in the upper right corner or in the lower right corner) and select Settings.

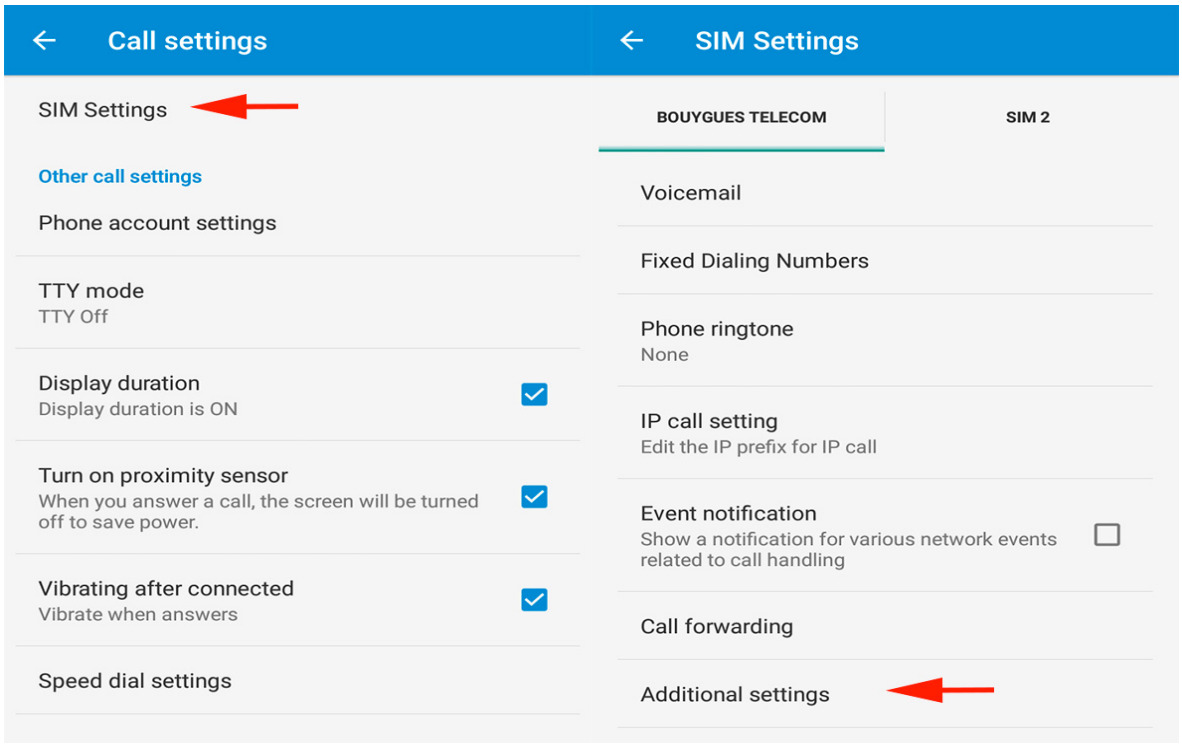

- 2. Select Call settings (or phone accounts) or, if needed, select Voice call.

Phone & Messages

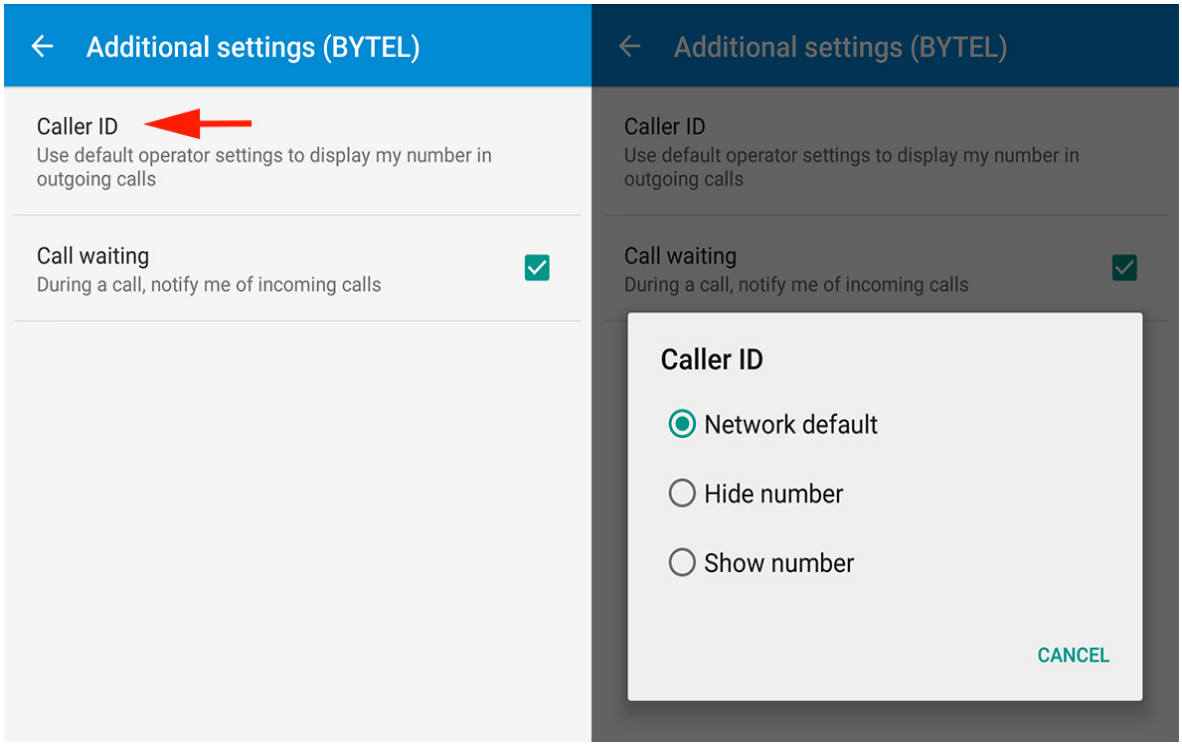

- 3. Select the name of your provider to show settings (or directly from your SIM card) then Other settings.

- 4. Select Caller ID to display the different options: Network default (default setting of your provider) / Hide / Display.
