## How can I make / answer a phone call?

If you have a device that lets you make and answer calls, you can find the **Phone** in the applications drawer or on your home page. Make sure you have [correctly inserted your SIM card](#) and you have an appropriate mobile contract.

### Make a phone call

application

In the **Phone** application, you can make a call from any tab.

(or)

From the tab: telephone keypad

Dial the phone number of the person you want to call. While you're dialing, suggestions from your contacts will appear to help you save time. You also have the possibility to add the number in your contacts.

and make your call.

# Phone & Messages

From the tab: History

Select the number you want to call if it is visible in your history. If needed, confirm

by choosing the type of call you want to make (voice or video) or press

or Favourites

# Phone & Messages

## Answer a call

When you receive a phone call, a new window will automatically be displayed on your screen.

- 1. Main notification warning you of a phone call. You need to drag this icon to the direction of your choice to answer / end / respond by sending an SMS**
- 2. By dragging the icon to the left, you decline the call and the person calling is redirected to your voice mail.**
- 3. By dragging the icon to the right, you answer the call.**
- 4. By dragging the icon to the top, you decline the call and you can answer via a choice from a list of preprogrammed (editable) text messages.**
- 5. Photo linked to your contact**
- 6. Your contact information (name & first name), provided by you. If the person calling is not saved in your contacts, the number is displayed and a location attempt is done.**
